# DVDMS TB Application : Nikshay Aushadhi

- Nikshay-Aushadhi is a web based supply chain management application deals with the management of stock of various Anti: TB Drugs and Lab items required by various State-Drug Stores of state, District Drug Stores and their TUs and Primary Health Institute(PHI) to distribute drugs to patient throughout the nation.
- Nikshay-Aushadhi helps to determine the Drug Position, Expiry Details, Routine/ADR Requirements, Patient-wise consumption of all states / at all levels on a real time basis.

# Nikshay Aushadhi : Key Functionalities

- Top down Approach helps States in Better Monitoring & Control down the line
- Online Indenting of drugs on annual demand basis or need based request
- Store, Maintain, Update, Search & Display information related to drugs through centralized Database server across multiple stores
- Ease of Demand Generation and forecast
- Online issuance of drug based on drug Availability at various stores
- Provision to maintain expiry date / shelf life for drugs wherever applicable
- Ability of online tracking of drug inventory at various levels throughout the states
- Help in better planning, execution and control on demand and supply throughout the states
- Various alert generation facility with different colors e.g. for expired items, re-order level etc
- Ability to generate customized Reports
- Ability to locate drugs using a number of search criteria in all Institutions throughout the states.
- Bar Code Interface for unique identification of drugs.
- Record transactions while moving items from one location to another through DTA.
- Help & Solution Desk for Users

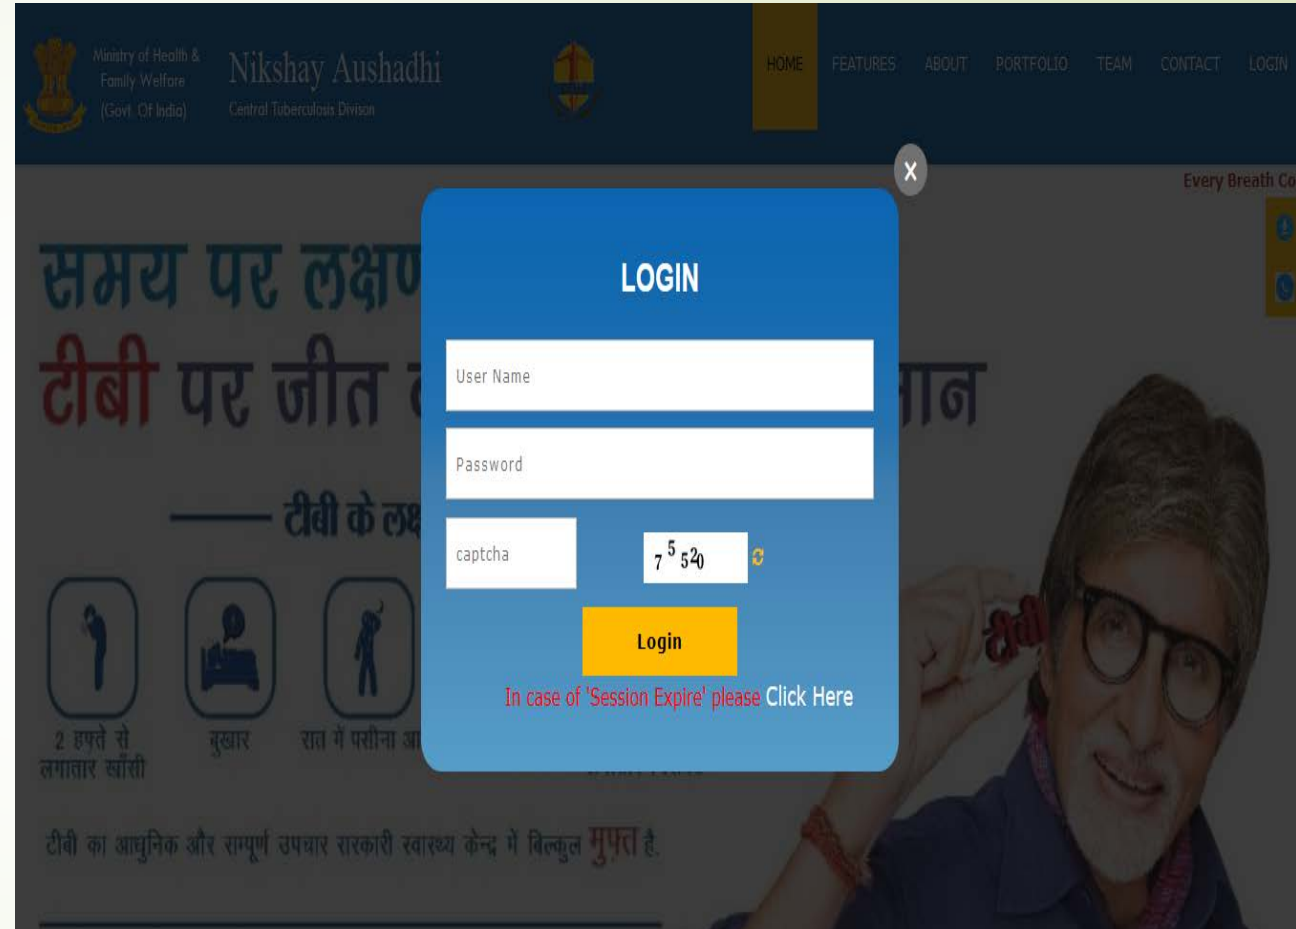

# Login Screen

- Open the application : <https://nikshayaushadhi.in>
- Enter '**User Name**', '**Password**' and '**Captcha**' then click on '**Login**' button
- An individual **User Name and Password** are given to every user. User has to enter User Name and Password

## ERRORS AND EXCEPTIONS IN LOGIN

### Your Login may fail due to any of the following:

- ❖ Incorrect User Name or password
- ❖ User login expired

# Steps Involved:-

The screenshot shows a web application titled 'Return Request Desk'. At the top, there is a navigation bar with 'Task List', 'Home Menu', and 'Return Request Desk x'. Below this, the main header 'Return Request Desk' is displayed. The interface includes two dropdown menus: 'Store Name' with 'DTC, Gaya' selected and 'Status' with 'All' selected. A row of buttons is present: 'Generate', 'Modify', 'Cancel', 'Return', 'View', 'Print', and 'Report'. Below the buttons, there is a 'Show 10 entries' dropdown and a 'Search:' input field. A table with three columns is shown: 'Request No.', 'Request Date', and 'To Store'. The table contains the text 'No matching records found'. At the bottom of the table, it says 'Showing 0 to 0 of 0 entries' and has 'Previous' and 'Next' buttons. A pink circular icon with a dot is next to the text 'Modify/Cancel'. At the very bottom, there is a red location pin icon next to the text 'Last 365 days Request'.
